

INTERNATIONAL CORP BY UCB Africa

As part of our international benefits management strategy, we have developed a strong expertise in managing international mobility programs for corporates. We improve your employees 'healthcare experience, optimize your company's costs and facilitate your employees' lives at every stage of their mobility.

A dedicated support

We are at your side to help you make your international mobility policy a real asset for your company.

Recognized consulting expertise

customized support for the definition, construction and management of your mobility programs

Medical support

a dedicated team for the medical follow-up of all your employees (health check-ups, patient management, recommendations of health care providers) and the control of your health care expenses through our international health care network

Customer and insured experience:

aggregation of services for a global healthcare path (teleconsultation, assistance, prevention, etc.), digital tools for simplified daily management

■ Mobility programs adapted to your specific needs

We combine all our expertise to design these mobility programs.

Why UCB Africa :

- A team of expert consultants.
- Experience in all sectors of activity.
- Broad view on relevant benchmarks.
- Technical support from our in house legal and actuarial departments.
- An integrated medical team that provides in-depth health care support for employees to ensure responsible consumption and control of technical ratios.
